

Duck Creek RV Park & Resort

6635 Boulder Hwy * Las Vegas, NV

Duck Creek RV Park & Resort features all the amenities of a first class resort within minutes of the Las Vegas Strip, also known as "The Entertainment Capital" of the world. Big rig friendly and providing 30 and 50 amps hook ups at all sites and within walking distance to Sam Boyd Stadium.

Testimony:

"We, like many, were skeptical about the claims HydroFLOW made, as living and working in Las Vegas we meet all the hustlers, con-artist and shysters. When Mike Colton, HydroFLOW west coast master distributor, was staying in our park he introduced us to HydroFLOW - but we had our doubts. Living in Las Vegas we have some of the hardest water, which causes unwanted scale build-up on all our internal plumbing fixtures, not to mention the restroom sinks and shower heads. HydroFLOW offered a 1 year fit for purpose guarantee that said they would return our money if they did not do what they claimed. We installed 2 HydroFLOW units, one for each of our restroom laundry facilities, in March 2015 and since then have had no new calcium scale build-up on fixtures. What residual we do have is easily wiped away.

That same year we installed a HydroFLOW device on our pool to reduce chlorine, enhancing filtration and water clarity while controlling odors. We have been so impressed that in November 2017 we purchased another HydroFLOW device for our Spa and one for my personal residence.

One thing you need to remember is that you need to drain your hot water tank once a year after initial installation to remove the scale that settles out in the bottom of your tank.”

James Coulthard –Manager
